December 15, 1992

Mary Joan and I

Phil Pierce and Richard Hope-They have a meeting planned with area Boards of Health to try to get everyone behind a combined effort to get the State to provide funding for Landfill problems. We agreed to fund expenses for this meeting at Brookfield Town Hall on January 9, 1993.

We then did the bills and reviewed the correspondence. Finished all but the Landfill portion of the budget.

We agreed to send the Selectmen a letter requesting they advertise for a third member for our Board.

We adjourned at 9pm.

Respectfully,

Barbara Clancy, Chairman

January 7, 1993

Mary Joan and Barbara present.

7p.m.-Greg Mckinstry and David Pulcini-They wanted to inform us that they are planning to present plans for a manufactured home retirement community across from the Clam Box on Route Nine. They made no requests and we made no promises. They had attended the Planning Board last night and wanted everyone to be informed. We thank them for coming.

Greg McKinstry then requested the Brookfield Meadows park license for 1993. They was granted and paid for. They are now in phase 2.

7:30-Norman Woolard(owner of building at corner of Route 9 and Draper Street) was requested to be present. He did not show up. Susan Nelson was present and we agreed to send him another letter telling him to call her upon receipt or we would proceed to court.

We read a letter from Tim McElroy and a report from Mark Farrell concerning the property at the corner of Central and Pleasant Street. I will meet with Attorney McCaughey in the morning and get his advice on how we should best solve this problem.

We signed the bills and reviewed the correspondence.

Meeting adjourned at 8:30 p.m.

Respectfully,
