Meeting opened at 7 PM.

Mr. Martin Bannish attended the meeting and requested the proper method to apply to the ConsCom regarding 3 trees he would like to cut down on his property at 18 Brunnell Avenue because the trees are presenting a hazard. Martin presented a sketch of his property that has a boundry on North pond and that showed the position of the trees. The commission informed him that because he was at the edge of the bank of North Pond and in the 100 foot buffer zone, he should submit a Request For Determination. The commission will respond to that at the next regular meeting in December, 2012.

No applications were presented.

MACC submitted a bill for commission membership which is an annual item and will be paid by the treasurer.

No other correspondence required discussion or action.
