Jerry Johnson from Capital Improvement Committee came to review planning for next four years to see if we are on track. The new building issue I pointed out was the ADA ramp is sinking on the upper level. Perhaps settling We will need to have this reviewed and estimates for improvement. Another update will have to be re-pointing the fireplace. We need to update Capital Planning list and submit to include the aforementioned repairs.

Review current updates to building. Ron Wassmer will give us estimate (Brenda Will call again). Children's room: paint, etc. to be funded by Friends of the Library, and bathroom updates.

CW/Mars computer updates necessary and first phase of updates are complete, report from Anne Savoie (CW/Mars representative.) We are now registering patrons and began circulating December 18, 2012.
